## FIRE PITS

One of the most popular forms of outdoor heating is the Fire Pit. We manufacture Fire Pits to suit all homes.

Designed to allow the organic fire to be enjoyed outdoors, alfresco areas or patio.

Our Fire Pits are made from Mild Steel, Corten (the very popular "rustic" look), Stainless Steel and Copper.

Fire Pits are multi-functional and can be used for fires, herb gardens, water features, cooking or even an ice bucket!
